

Chisholm Institute of TAFE Dandenong Trade Training Centre

arete Australia partnered with the Chisholm Institute of TAFE to deliver an extensive refurbishment of the Trade Centre at the Dandenong Campus, following an initial Early Contractor Involvement phase. The project aimed to consolidate and enhance the delivery of trade teaching services, ensuring a consistent standard across all Chisholm campuses.

The works encompassed upgrades to workshops and teaching areas within Buildings K, L, and U, as well as a refurbishment of the Building Y staff lounge, including its kitchen and dining facilities. Externally, the demolition of the northern shed of Building D significantly improved the visual connection between the eastern portion of the campus and the Trade Centre Precinct. This strategic removal of vehicular traffic around the TCP further supported the project's goal of fostering a cohesive, modernised learning environment.

Completed to the highest standard, this refurbishment reflects arete's commitment to delivering educational spaces that inspire and support vocational excellence.
